

PreHeat/PreGel Ovens

INFRATECH™
a SEACHROME company

Made in America

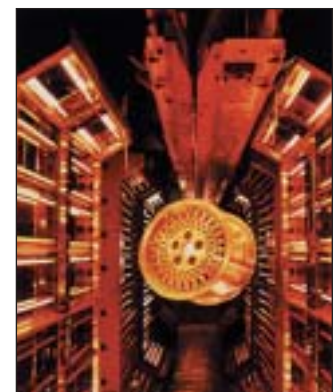

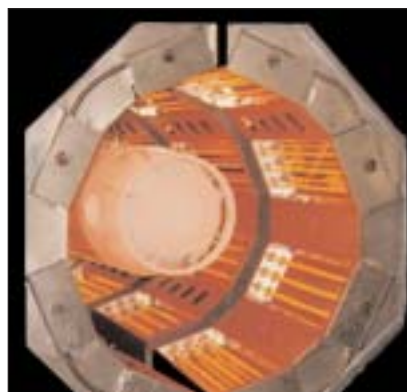

Many different controls are available; including state of the art digital solid state and analog controls with single zone, multiple zones, timers, and non-contact infrared thermocouples.

Infratech now offers fully assembled PreHeat/PreGel Ovens complete with control systems. These ovens are preassembled and wired to a central junction box mounted on a stand for fast and easy installation. Available with product openings ranging from 12" to 90", individual sections are 4 feet long and multiple units can be assembled together for longer ovens.

Infratech PreHeat/PreGel Ovens feature

the renowned Infratube™ Industrial Heat Panels. Infratech Electric Infrared Heat Panels are versatile high intensity units for industrial and commercial applications. Constructed of 18 gauge, aluminized steel with polished stainless steel reflectors, the fixtures can be used on open frames or integrated into oven enclosures such as these. The insulated fixtures can also be used as the exterior oven walls. Electric infrared

curing offers the fastest cure times, generally improves finish quality and adhesion, and infrared curing works well with virtually all air dry and heat cured coatings including primers, alkyds, enamels, stains, adhesives, top coats, and powder. UL Listed industrial controls are available for precise heat output regulation and process control. One year Limited Manufacturer's Warranty on all equipment.

Infratech PreHeat/PreGel Ovens & Components

Part #	Description	Notes	Shipping Wt.
X-26-2100	PreHeat/PreGel Oven, 30"		
X-26-2110	PreHeat/PreGel Oven, 42"		
X-26-2115	PreHeat/PreGel Oven, 54"		
X-26-2120	PreHeat/PreGel Oven, 60"		
X-26-2125	PreHeat/PreGel Oven, 72"		
C-26-2130	PreHeat/PreGel Oven, 90"		
	Controls and Components		
X-26-2170	PreHeat/PreGel Control	240v, 200 Amp	
X-26-2175	PreHeat/PreGel Control	480v, 200 Amp	
X-26-2180	PreHeat/PreGel Control	240v, 300 Amp	
X-26-2185	PreHeat/PreGel Control	480v, 300 Amp	
X-26-1000	G-348 Gable Panel, 48"	Elements Not Inc.	
X-26-1010	F-348 Flat Panel, 12"x48"	Elements Not Inc.	
X-26-1020	F-948 Flat Panel, 30"x48"	Elements Not Inc.	
X-26-1040	B100, Add For Each Muffin Fan Inst.		
X-26-1045	SFF2-12, Additional 12 Ga. Lead		
X-26-1046	SFF2-12, Additional 10 Ga. Lead		
X-10-4035	48" Heat Panel Element		
X-10-4040	60" Heat Panel Element		
X-10-4045	72" Heat Panel Element
