

HIGH INTENSITY MEDIUM WAVE PORTABLE INFRARED EQUIPMENT

- CURE / DRY FROM INSIDE OUT
- DRY / CURE MOST LIQUID SOLVENT BASED COATINGS
- DRY / CURE MOST LIQUID WATER BASED COATINGS
- DRY CONTACT ADHESIVES
- CURE COMPOSITES
- EVAPORATE WATER
- PREHEAT MOLDS
- SAFE NO UV RADIATION
- UL LISTED

HIGH INTENSITY medium wave infrared technology with 4,000 watts of curing power! HIGH INTENSITY quartz infrared curing allows the operator to achieve temperatures of 140°F (60°C) in less than 90 seconds. A digital solid state, programmable control with electronic timer is used for reliability, accuracy and ease of use. There is a large area coverage 4' x 4'. The parabolic reflectors are for uniform heat distribution. The stand is multi-position with locking casters and has a narrow foot print for mobility. The shock arm is adjustable and extends to over 7'. Equipped with a 25' power cord with NEMA type plug. Achieve incredibly fast and safe cure times, water-based primers cure completely in less than 4 minutes! UL Listed.

SPECIFICATIONS

MODEL #	S-2002
PART #	16-1020
VOLTS	240
AMPS	18.0
WATTS	4,000
SHIPPING WT.	160 lbs
LENGTH	39"
